PORTFOLIO

Floating

Floating is an identity/tag. Images were taken from an installation which included stickers, oil paintings, screen printed tee shirts, art objects and drawings. The commodification of art, the way design functions as art and art vs design were all thing at the forefront of my mind.

All paintings are backed on canvas and were created between 2020 and 2022.

Over time I realized I had a habit of making paintings in pairs. In reflection, I felt these 8 pairs went together to define a period.

(Each black square was a cover for an Instagram carousel that also featured more detailed shots of the paintings.)
